

MAMMOTH MACHINERY

MT2200 TRACK DUMPER

The MT2200 tracked mini dumper is the perfect machine on the construction site, with the ability to dump to the left and right to backfill trenches/foundations as well as forward. With removable sides, this unit can easily move pallets of product into hard to move places that cannot be accessed with traditional machinery.

Engine	Honda GX390 13.5 HP
Weight Capacity	2200 Lbs.
Transmission	Fully hydraulic
Speed	0-6 KM/H
Length	71 inches
