

MAMMOTH MACHINERY MT2850 TRACK DUMPER

The MT2850 track dumper is the largest carrier in our line up. This sit in model is extremely powerful and the perfect farm machine. With a weight capacity of over 2800 lbs and under 42 inches wide, this unit will haul all types of materials through hard to get to places! With removable sides, throwing on a pallet of sod or stone becomes a simple task and moving it even simpler!
